

Building Director Brant Lane

August 2016

Dear Brothers and Sisters,

Mark 2:17- They that are whole have no need of the physician, but they that are sick: I came not to call the righteous, but sinners to repentance. I thank God he showed me a better way, but before I could get on the straight path I had to repent of my sins. Let us remind those we come in contact with that it is repentance unto salvation. Praise the Lord!!!!

My family spent the 4th of July with our family in Georgia and we celebrated my grandmothers 86th birthday.

On July 5th we headed to Greenwood, Indiana for a building project with Faith Baptist Church. It was such a good project. I enjoyed spending time with Pastor Steve Maxie and all of the members of the church. The project saw some 36 people from nine different states add a foyer and drive under to the existing building. The project lasted two weeks and at the end of two weeks all the exterior was left ready for the brick masons and the inside had all the drywall hung ready for the finishers. Also during the building project there was a 2003 Geo Tracker donated to the Mechanics ministry. The lady told me the Lord had been working on her for some months about donating it and she was so excited about the opportunity God had given her to help a missionary. God is good!! You know what I can't wait to see, is how God gives back to her.

The month ended with my family going to Branson, Missouri for a couple of days of vacation before the kids start back to school. I appreciate the thoughtfulness of Faith Baptist Church in Greenwood as they helped make this possible. The month ended with us going to Texas for two weeks to help in a couple of revival meetings.

Please put on your calendar August 22- Sept 2 as the builders will be framing, roofing and siding the mission home. It is located at 11450 Hwy 1247 Eubank, KY (8 miles north of Somerset). If you need information on where to stay you can contact the Macedonian office or me and we would be glad to help. Please pray about having a part in this project. We have a missionary ready to use this home as soon as we can get it finished. The mission home is going to cost about \$85,000 to complete. The good news is that there is about \$15,000 in that account right now so that leaves only \$70,000 more to raise to complete the project. Please earmark any donations to Evening Shade Park. The Park could also use a good little tractor and bush hog to help in keeping the property maintained. God bless!!!

Please remember the Mechanic Ministry as they are finishing up the New Mexico and Colorado Van projects. They are still in need of some funds to finish these up. If you would like to have a part please send donations marked New Mexico or Colorado van projects. Thanks so much. God Bless.

There is still time to if you would like to go to San Luis Mexico for a building trip. Please contact me or the office to get on the team.
