Mechanics Director

working with

## January 2019

The month of December found us spending most of the time around our home area Acworth, Georgia working on projects in the shop. We were also able to help out some churches and missions with various needs with vehicles and some other various needs.

We spent Christmas at home and were able to spend time with some of our family. The flu hit many during the Christmas time and caused some delays with celebrating Christmas with some of our family. Thankfully, everyone at this time is getting better, but slowly.

Over the past 12-18 months we have been able to rebuild several vans that have been delivered to different missionaries. We have the ability to rebuild or replace the mechanical system on these vehicles as needed, along with servicing all of the operational systems to be able to be used in the ministries. Along with mechanically preparing the vans we have the cost of insuring, tagging, titling, pick up and transporting these vans when they are donated to Macedonian Missionary Service. All of these expenses along with sometimes unforeseen additional cost of delivery to the mission points has left our mission van fund in a negative state to the tune of about \$6,000.00 to date. Our desire is that you will prayerfully consider partnering with us to get this fund deficit taken care of. We are in the process of gathering and recycling metal parts and some older unrepairable vehicles that we have at the shops to help in any way with the deficit. Any offerings to help with this project can be made to Macedonian Missionary Service, please designate mission van fund on your checks.

We are also working on other van and vehicle projects at this time. We look forward to how the Lord will use the Mechanic's Ministry in the year 2019. We are thankful for many that have supported the ministry prayerfully and financially.

God Bless,  
Ricki Boyle  
Mechanic's Director
