Working with

## September 2019

Dear Co-Laborers,

I love August because I get another year older; the Lord has added another year to my life. In addition to that, several good things have happened this year. I received an exam after cataract surgery in both eyes, and they said I had 20/20 vision in both, but I will still need glasses for glare and reading.

Carole is on the mend; the doctor took an x-ray of her broken ankle bone and it is completely healed. She is now walking without the cane or brace. Her pacemaker is doing great. Thank you all for your prayers for both of us.

Everyone at Macedonian has been and still is very busy. The Builders, Mechanics, Mac-Trips, Radio Broadcast, Mac-Tech, Mac-Med Medical and all the others have given good reports.

Now it is time to begin the fall schedule. Bro. Paul Lamb is going to Romania to help with the foundation for a church building project next year. Mike Ryan has a group going to Brazil, and the Mac-Trips group is going to Honduras later.

I plan on going with the Macedonian Medical Team to Peru November 15-23. The Macedonian Medical Team began back in 1984, working with Bro. Carlos Angulo in the mountains of Peru. We have been going back to Peru about every two years since then, working with the Angulo brothers, Carlos and Juan.

For the last two months I have reported on the office getting a new copy machine. Well, thanks to some generous donors who are concerned about the work of the ministry, the copy machine is paid for! Thanks to all of you who had a part in retiring that debt.

Like the old saying of Morton Salt, "When it rains it pours", that is the way it seems sometimes. About two months ago, one of our air conditioners went out. The man that temporarily repaired it said that all three air conditioners were getting in bad shape and needed to be replaced. He also said that new ones are much more efficient and that we would soon recover the cost in savings of electricity.

We got an estimate on replacing them, but I thought it was a little high, so I called the man that replaces my air conditioners when needed. He said he would not give the price to everyone (including me) but that he would replace all three units for \$10,500.00. This is about half the price of the other estimate. He also said that the units need to be replaced, and that he would order the units and do the work in September. After consulting with some of the Directors, I told him to go ahead and order them. That is about \$3,500.00 each, instead of \$6,500.00 each.

We look forward every day to what the Lord has in store for us. Thanks again for all your prayers for Macedonian, Carole, and me.

God Bless You All,

Leon Jasper
