

From the desk of

Missionary Paul Lamb

Building Coordinator

working with

April-May 2020

The beginning of March found us in Wewoka, Oklahoma for the start of a great building project. The Corona virus was just a small thing we saw on the news once or twice, little did we know how serious it was. Wewoka, Oklahoma was a fun project. We started by spraying closed cell foam insulation throughout the walls and ceiling of the new building. Our new spray rig trailer performed flawlessly. A great thanks to all those who have helped in that fundraising. You have a part of every church that is built and insulated.

After the insulation, we framed the interior walls with metal studs. Metal is a different process that many of our volunteers weren't familiar with. It worked out great and looks fantastic! We also completed all the electrical rough-in and all the HVAC equipment and ductwork. The Electrical panels were completed, the baptistry was installed and the stage area completed. I want to send a big thanks to Pastor Matt Wyatt and the folks there at Mission Home Baptist Church. What a sweet fellowship we had. They were so good to us, we even got haircuts! Thank you Bro. Butch!

As the project progressed over the weeks, so did the Corona Virus. By the time the project was completed, and we were ready to move to the next place, it became apparent that travel was going to be limited, and home is where we would need to be. With the help of the Good Lord as well as some other Macedonian volunteers, we were able to complete spray foam jobs in Del Rio, TX, Center, TX, and Grapeland, TX. What a blessing to call these willing volunteers friends. Thanks for all you do. We left Wewoka, Oklahoma and went to Georgia for a quick stop to complete our taxes. Then on to our home base in Kentucky.

Because of the COVID-19, we were required to postpone the building projects scheduled for April at Pine Hill BC in Somerset, Kentucky. The project at Pine Hill BC in Somerset is now rescheduled for June 6-13. The project for Romania, in May has been canceled at this time and we hope to reschedule it at a later time. This is very disappointing for many reasons and they were difficult decisions to make, but we want to be good citizens, keeping everyone healthy and safe.

We have been here in our travel trailer in Kentucky and we have been working hard on planning our new home. Greta and I were able to purchase an acre of land and we are planning to build a modest home for ourselves. This has been a dream of Greta and me our entire marriage. God has blessed us with this downtime, and we are making the best of it. Please pray for us as we begin this project. We may need counseling before it's over... Ha Ha Ha, just kidding.

As we look forward to the future, we believe some of the things that are scheduled farther out will still take place. We are planning to be in Farmington, New Mexico September 12-19.

Please pray for health, wisdom, safety, and support during this time. We love you all.

Paul Lamb
